## HO KIT GOT HIS JUST DESERTS

Assaulter of a Small Girl Sent to the Reef—A Merry Mix-up.

Ho Kit was sent to the reef yesterday for six months by Judge Wilcox for having committed assault and battery on Maaea, a 7-year-old native girl.

A. L. C. Atkinson appeared for the defendant.

Complainant testified that the assault was committed last Friday, near the corner of Nuuanu and Kukui streets, between the hours of noon and 1 p. m.

Ho Kit strove to prove an alibi. One of his witnesses stated that defendant had been working on a roof from 9 a. m. until 2 p. m. of the day when the assault was said to have been committed and that all that time he had never been out of his sight.

Judge Wilcox said that he did not think that defendant or his witnesses were telling the truth. He considered the case an extremely bad one and regretted being unable to impose a heavier sentence. An appeal will be taken.

Antone Baboza, a small boy, was reprimanded and discharged for having used large and disgusting language. When arrested the young hopeful was visibly under the influence of liquor.

Under pressure Antone admitted to Deputy Sheriff Chillingworth that his condition was caused by partaking of wine obtained in a small store on the slope of Punchbowl. The vendor of the stuff will probably be arrested today.

Other cases dealt with were: Wong Wa Yee, seduction, nolle prosequi; A. Wolf, distilling liquor, discharged; Chew Pong, gambling, nolle prosequi; Mark Kong, Chun On, gambling, \$50 and costs; Adachi, Okimoto, peddling cakes without license, nolle prosequi; D. McPherson, drunkenness, bail forfeited; Billy, drunkenness, \$2 and costs; Tong Lee, gambling, May 31; Wai-lau, assault and battery on Kam Pong, \$2 and costs; Aika, alias George Smith, assault and battery on Chang Kong, \$10 and costs; Hasel Bonk, common nuisance, reprimanded and discharged; John Poe, Willie Kaeo, gambling, \$2 and costs.

Yesterday's arrests included: Kahahana, larceny; A. Timas, D. Gibbs, J. Gouveia, larceny; Taylor, profanity; Antone Richards, adulterating milk; Kudis, peddling cakes without a license.

Antone Timas had a little trouble with a man near the Pacific Mail wharf and a fight ensued. Then Gibbs happened along and threw in his lot with Timas' antagonist. To even matters up, Gouveia arrived on the scene of the combat opportunely and allied himself with Timas.

Drawn to the spot by the scent of blood, Archie Gilliland and a custom house inspector attempted to separate the rival factions. While the work of pacification was going on Gibbs shed a \$30 gold piece, which was claimed by Gouveia.

The contest was finally adjourned until today. Judge Wilcox will act as referee.

The funeral of late Mounted Patrolman Wubbers took place yesterday afternoon. Patrolmen Gumpfer, Smith, Spillner, Maitland, Burningham, and Ake acted as pallbearers.

Following the hearse came deceased's

GEORGE H. PHILLIPS.

Although George H. Phillips, of Chicago, is only 30 years of age he has already won fame as one of the most daring speculators that the grain markets of the country have ever seen. For some weeks he has dominated the corn market, and on several occasions has successfully met the onslaughts of a combination composed of some of the heaviest operators. Phillips has the support of grain growers and rural speculators in keeping up prices.

horse led by Officers Ake and McCormick. Then came the rest of the Mounted Patrol and a detachment of eight foot-policemen, the latter forming a guard of honor. High Sheriff Brown, Deputy Sheriff Chillingworth and Captain Parker were present at the funeral.

Particularly noticeable among the numerous floral tokens of regard was a design of the dead man's badge with the figure "4" and the word "Rest."

### MUD AS A LIFE-SAVER.

In London it was noticed that when the streets were muddy there was a marked diminution of diseases that were prevalent when dust is blowing. Bowel troubles are plentiful when people are compelled to inhale dust. Consumption, too, often gets its start from the dust. Other illnesses almost equally grave follow from the breathing of flying particles of filth. Add sufficient water to transform the dust into mud, and the power of harm is gone, for mud is not inhaled. The germs that infest dry dust become inert in mud, because these germs, vicious as they are, are too lazy to go anywhere unless they are carried. Moreover, mud is very likely to get ultimately into the drain-pipe, and the germs are carried off where they can do no harm. Even when mud dries on the clothing and is brushed off, the dust that arises therefrom does not appear to be as dangerous as that which has not been recently wet.

It will thus be apparent that there is a bright side to mud, and henceforth all but the most fastidious will revel in muddy streets. Many physicians may advise their more weakly patients to go abroad in search of exercise only when the roads are muddy. Rich men may be looked for to have special mud-plots somewhere on their grounds, while sanitariums may be expected to

advertise that all the walks about their buildings are so constantly attended to that mud is guaranteed every day in the year. Mud-baths have long been utilized, and mud would seem certain to become one of the great curative agents of the near future. Yet wise medics are learning nothing that has not been known for ages to mothers of large families in rural districts where "playing in the mud" has always been known as the children's healthiest pastime.

### TOO SHARP.

A gentleman on a visit to a coal mine, thinking to take a rise out of the foreman, an Irishman, asked him the following question:

"I say, Pat, how do you get the men out of the pit?"

Pat, seeing through the joke, answered:

"Oh, we pull them up with the hair of the head."

The gentleman looked at him a second or so, and then said, with a smile on his face:

"Ha! but what about those with bald heads?"

"Oh," says Pat, "we use suckers for them."

WHAT IS THE MORAL DIFFERENCE BETWEEN A JUDGE WITH A BILL BEFORE THE LEGISLATURE WHO, WITHOUT HOLDING AN EXAMINATION, ISSUES LICENSES TO PRACTICE LAW TO UNEDUCATED LEGISLATORS WHOSE VOTES HE WANTS, AND THE MAN WHO BUYS OUTRIGHT SUCH VOTES FOR COIN?

### MYSTERY OF RABBIT'S NOSE.

## THE SENATE'S LONE HAND

(Continued from Page 2.)

trict. This committee from the information obtained by them cannot approve of the pay roll for the District of South Hilo. Among the items is pay of a humane officer as well as a health officer, as also that of a night patrol. The pay roll for the month of April also showed that there were in addition to the regular force of twenty-four members, sixteen special policemen in that district who were receiving salaries ranging from \$3 to \$15 a month. The pay of a humane and health officer or a night patrol, especially the latter, where the police are on duty during the night, we believe should not be paid by the Police Department.

The High Sheriff's estimates show that the sums asked for are necessary for the proper and efficient conduct of this department of the Government, and your committee believes that, taking into consideration the progress and increase in population of the past, and believing that it will continue in the same ratio during the next biennial period, that the money asked for each of the Islands named and the pay of their police, is as little as can be done with and should any decrease be made, that it will seriously interfere with and affect seriously the efficiency of this department. Your committee therefore recommend that the items pass as in the bill.

Respectfully submitted,

C. BROWN, Chairman.  
JNO. PARIS,  
WM. WHITE,  
JOHN T. BROWN,  
D. KANUHA.

Senator C. Brown then read the list of the high sheriff's estimates in regard to the pay of police on Maui. The items referring to the pay of health officer, \$70; humane officer, \$70, and a night patrol, he thought, wholly unnecessary, and proposed reductions all along the line.

Senator Baldwin objected to any proposed cut, as it was difficult enough now to secure trustworthy men to fill the positions, as they could make more money raising cane on contract than they could at being one of the "finest."

Senator Kalanika'ala objected to any cut in salaries. If anything should be done, he favored an increase in regard to the pay of police outside of Oahu.

A great deal more wrangling was indulged in by other members, which was finally stopped by Senator Cecil Brown offering the following amendment for the benefit of Senator Kalanika'ala, who had been doing the most kicking:

"That the high sheriff is hereby requested to make such reductions in the payment of the superior officers of the police department in the different islands and apply such reduction towards the monthly pay of the policemen."

On a motion by Senator Baldwin the report of the special committee was amended was adopted.

Upon "Oily Bill's" motion the Senate adjourned at 3:50 p. m., until 2 o'clock today.

"Did Dumley's marriage involve any financial responsibility?"  
"Oh, yes; his wife requires him to earn enough to pay his laundry bills."
